

# QUICK START GUIDE

## AcuraLink Streams

### Introducing AcuraLink Streams with Aha™ by HARMAN

Streams with Aha Radio gives you the power to stay connected to your smartphone without ever looking at it.

This innovative infotainment system, accessed through the touchscreen of your Acura, uses the cellular network connection of your smartphone to connect you to numerous internet radio stations, podcasts, personalized location-based services and social media options – all in one convenient location. All that's left to do is drive and listen – Streams takes care of the rest.

Compatible smartphones

iPhone

Android

### Personalized Infotainment

Choose from numerous infotainment options:

Internet Radio  
e.g. CBS, CBC, BBC, Slacker Radio

Podcasts  
e.g. NPR, News, Social, Talk, Comedy

Audiobooks  
e.g. Fiction, Non-Fiction, History, Children's books

Location-based services  
e.g. Hungry, Coffee, Weather, Hotels

Social Media  
e.g. Facebook, Twitter

### Before You Begin.

#### A. Download the App

Get the AcuraLink Streams App from your smartphone app store:

iPhone:

Android

Tap on your smartphone's app store icon and type **AcuraLink Streams** in the search bar.

#### B. Register with AcuraLink and Aha

Launch the App on your smartphone and Tap **Register** and follow the sign-up prompts:

- ▶ Register for your AcuraID or connect to an existing MyAcura account.
- ▶ A welcome **E-mail** will be sent to you with confirmation.
- ▶ Register for Aha or login with a previously existing account.

# 1. Customize

Add and delete stations in the AcuraLink Streams app by following these steps.

## Find and Add a Station

- Launch and login to the **AcuraLink Streams App** and your **Aha** account on your smartphone.
- Tap  to search for stations.
- Tap  to browse for stations by category.
- Tap one of the stations listed from your search. 
- Tap  for the selected station to appear in your presets.

## Adding Facebook, Twitter or Slacker

- Tap **Settings**  in the upper right corner of App.
- Tap **Associated Accounts**.
- Choose Facebook, Twitter or Slacker Radio and Login to your account.
- Add them to your Stations list and/or Starred Stations.

## Create Starred Stations

- Tap  to view where your selected stations will appear.
- Tap the **star**  adjacent to the station to select it as a favourite (starred) station for in-vehicle streaming.

## Delete Stations from your lists

- Tap the edit button  at any time to remove or re-order stations App.
- Tap on the **empty circle** to remove or re-order

# 2. Connect

To stream your stations in the vehicle, connect your smartphone to AcuraLink in-vehicle by following these steps.

## Connect via USB (iPhone only)

- Plug in the USB cable to the iPhone and tether it to the USB port outlet located in the centre console.

## Connect via Bluetooth (Iphone/Android)

- Pair your smartphone. See the 2014 RLX Advanced Technology Reference Guide for instructions.

# 3. Play

Play your favorite stations in the vehicle by following these steps.

## Select a Station

- Turn the car on to Accessory mode or start the ignition.
- Press  **Aha** on the Audio Touchscreen from the menu. Streams automatically connects.

- Your list of favourite (starred) stations now appear on the On-Demand Multi-Use Display™.

## Play Station

- Press the desired station to begin playing.
- Press  to return to your list of stations.
- Use the Selector Knob to view more options and information on your selected station via the 8" inch colour LCD display.

## Disconnect

- Disconnect the USB cable if using USB.
- Tap the back  arrow until you reach the main page.
- Tap the arrow  to logout of Acuralink Streams.
