

ILX

When you're focused on performance, your imagination sees possibilities everywhere. That perspective created the ILX, a driver-centric approach to engineering we call Precision Crafted Performance. With it, every curve in the road, every parking garage ramp, every tight roundabout, and every wide-open passing lane is an opportunity to enjoy a premium performance experience. Welcome to one of our most spirited vehicles, the 2019 Acura ILX.

MAKE
EVERY
CORNER
YOUR
FAVOURITE
CORNER

ILX with Technology A-SPEC package shown in Apex Blue Pearl.

ILX with Premium package shown in Modern Steel Metallic.

ILX with Technology A-SPEC package shown in Majestic Black Pearl.

IT DOESN'T JUST LOOK THE PART.

The 2019 ILX sets the stage for premium performance well before you enter the driver's seat. Its low, wide, athletic stance communicates the corner-hungry nature of the sport sedan. A focus on performance is furthered through available 18", machine-finished, noise-reducing wheels, while up front, the bold Diamond Pentagon Grille flanked by chiseled Jewel Eye™ LED headlights welcomes all with a face that says "Let's go find some corners."

GIVE YOUR ILX AN EGO BOOST.

Confidence creates performance. How we appoint a car, the style we add to it, creates the confidence we feel about it. Inside and out, the ILX A-SPEC is appointed with high-performance style. It begins up front with dark Jewel Eye™ LED headlights flanking a grille finished with black chrome accents as well as a matte graphite insert. Style is furthered along the sides, with underbody spoilers as well as impressive 18" Shark Gray 15-spoke wheels. And in the back, a piano-black diffuser and a decklid spoiler add to the spirited styling.

ILX with Premium A-SPEC package shown in Performance Red Pearl.

A-SPEC

GIVE YOUR ILX AN ATTITUDE ADJUSTMENT.

Inside the ILX, A-SPEC appointments instantly communicate its high-performance focus. At the driver's feet, stainless steel sport pedals offer a race-boot-ready style, while seats finished with perforated Ultrasuede™ inserts and colour-contrast stitching add to the performance-focused attitude. Above, a darkened headliner increases the dramatic effect of the red-illuminated instrument panel, and throughout the cabin, A-SPEC badging alerts everyone to the coming thrills.

ILX with Premium A-SPEC package shown in Red Leather with Ebony Ultrasuede™ insert.

ENJOY THE SILENT TREATMENT.

When you drive a car as spirited as the ILX, running up and down the 8-speed dual-clutch transmission will keep engine revs high, not to mention your adrenaline levels. Thankfully, Active Noise Control, standard on every ILX, dramatically reduces unwanted noise so you can find additional inspiration in the spirited engine notes. It's a focus on performance matched in comfort with an array of premium materials, including a leather-wrapped steering wheel and shift knob. As well, dual-zone automatic climate control, complete with humidity control and multilevel heated front seats, further improve everyone's comfort. And to empower the driver, an available 7" LED backlit touchscreen manages everything from cell phone to audio to vehicle information.

ILX with Premium package shown in Perforated Ebony Leather.

IF YOU CAN'T REMEMBER YOUR FIRST ROLLER COASTER, YOU WILL.

More than horsepower, more than torque, more than prestige, a liquid-smooth, blink-fast transmission is what makes a premium performance sedan thrilling. Inside the ILX, perfectly mated to its purposely lightweight and ultra responsive 201-hp¹ i-VTEC[®] inline-4-cylinder engine, is a masterpiece of a transmission: the industry's first 8-speed dual-clutch transmission (DCT) with a torque converter. The fast and smooth shifts of the ILX's DCT directly connect the driver to the car and road. It's a connection that optimizes not just horsepower, but also every turn, every exit ramp, every roundabout, every parking garage, every side alley, every single drive, turning even the most routine driving moments into some of the most thrilling of your day.

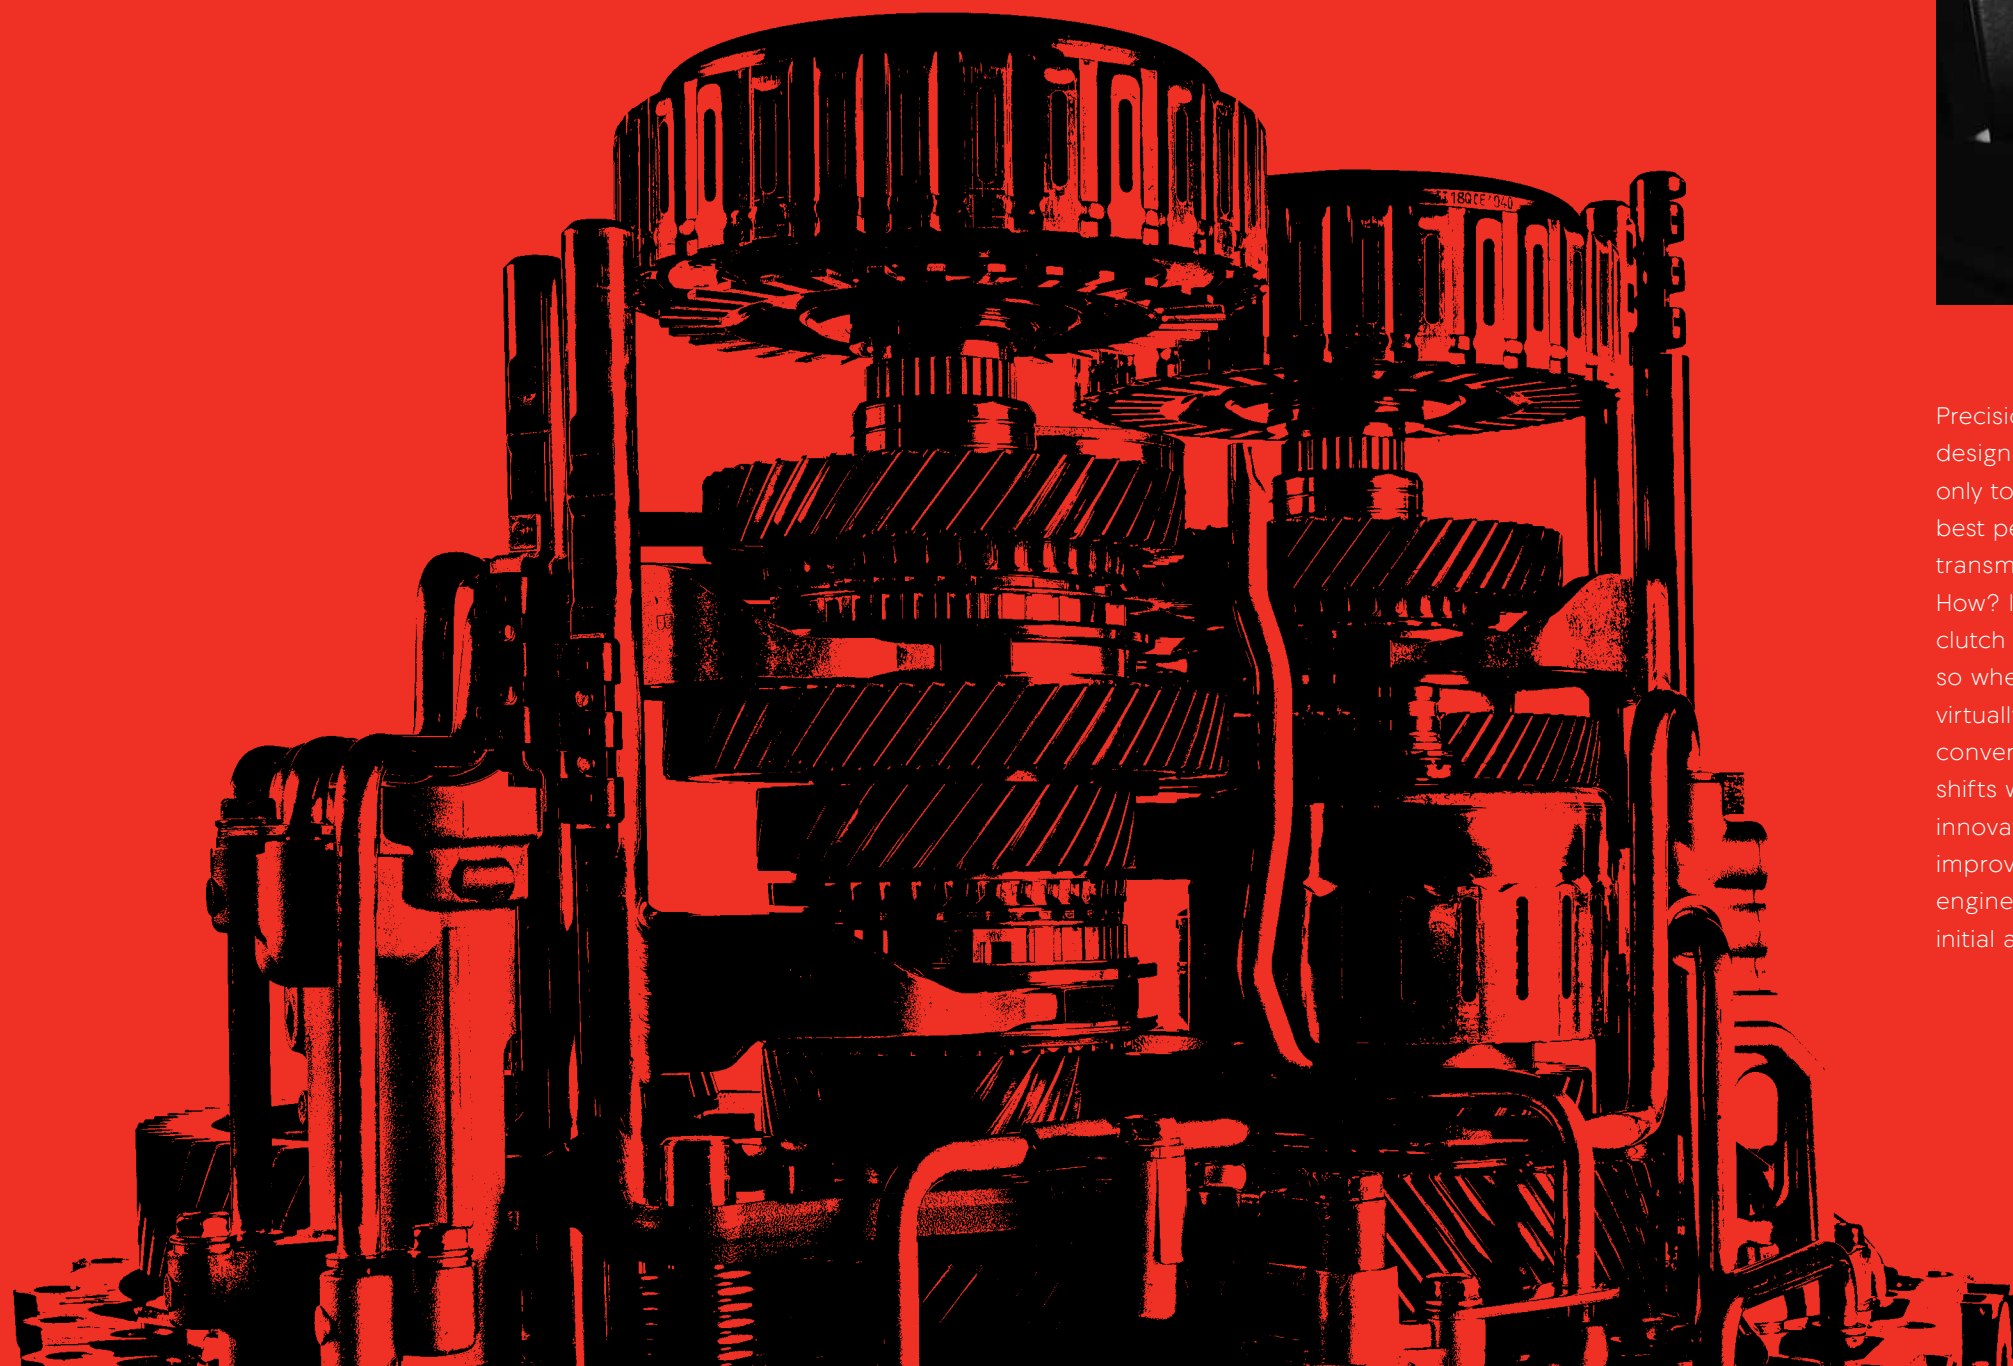

ILX with Premium package shown in Lunar Silver Metallic.

8-SPEED

DUAL-CLUTCH

TRANSMISSION

Precision Crafted Performance is our North Star for design and engineering. It is there to remind us not only to create the best performance cars, but also the best performance drivers. The world's first dual-clutch transmission with torque converter does just that. How? It's the "dual" that makes the difference; one clutch handles the odd gears, another the even gears, so when you shift through the eight speeds, there is virtually no lag time between shifts. Add the torque converter, and the result is exceptionally smooth shifts when traffic is anything but. It's a world-class innovation so powerful that it also dramatically improves off-the-line acceleration, multiplying engine torque for significantly more powerful initial acceleration.

DESIGNED TO

PROTECT

LIKE IT PERFORMS

ILX drivers and passengers are surrounded by an extensive number of both standard safety features and available innovative Acura safety technologies, further enhancing the driving experience through greater peace of mind.

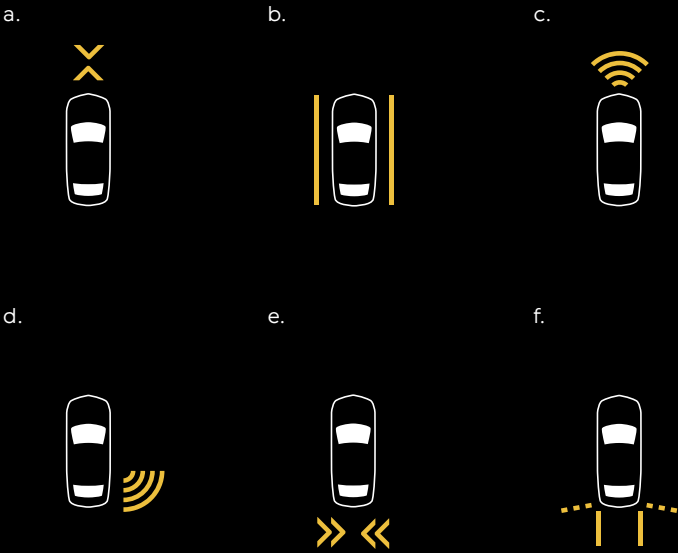

ILX with Premium A-SPEC package shown in Performance Red Pearl.

THE MOST IMPORTANT PERSON ON THE ROAD IS EVERY PERSON ON THE ROAD.

AcuraWatch™ forms a network of sensing technologies hard at work in the ILX. These advanced safety and driver-assistance features are designed to constantly gather information and offer warnings, and some features are even engineered to take certain actions when necessary, all to help prevent, avoid, or minimize threats.

- a. Collision Mitigation Braking System™² (CMBS®)
Forward Collision Warning (FCW) system²
- b. Lane Departure Warning (LDW) system²
Lane Keeping Assist System² (LKAS)
Road Departure Mitigation (RDM™) system²
- c. Adaptive Cruise Control (ACC)
- d. Available Blind Spot Information (BSI) system²
- e. Available Rear Cross Traffic Monitor system²
- f. Multi-angle rearview camera² with guidelines

ILX with Technology A-SPEC package shown in Platinum White Pearl.

A white car body is positioned on a test rig in a crash test facility. The car is facing forward, and its front end is visible. The rig is a complex metal structure with various components, including a large red light fixture hanging from the ceiling. The floor is marked with a red and black striped pattern. The background shows a large, white, industrial building with a glass facade.

ADVANCED COMPATIBILITY ENGINEERING™

Acura's Advanced Compatibility Engineering™ (ACE™) body structure is designed to absorb and disperse frontal impact energy so less force is transferred to what really matters: the people inside. But we didn't stop there. Crash compatibility is designed into the structure as well, which helps to better protect the occupants of all vehicles involved in the event of a frontal collision. ACE incorporates extra bracing at the front corners to help absorb and distribute impact energy from narrow-offset collisions to the primary crash structure. The outer braces are designed to transfer impact load toward the centre of the frame, where the energy can be distributed around the cabin area more evenly. This enhanced frontal-crash-energy management is engineered to help reduce the forces transferred to the reinforced cabin and can help to more evenly disperse the forces transferred to other vehicles in a collision.

EFFORTLESSLY CONNECT TO EVERYTHING AND EVERYONE.

Available AcuraLink™^{2,4,6} effortlessly connects you to the information and media you want, whether it's with managing replies, finding a better route to your destination, or preloading your ILX with great trip-planning destinations. Should you need more help than all your technology can supply, Concierge directly connects you to personal assistants who can take care of everything from reservations to route options. And in the event of a collision, the vehicle will automatically call a response agent to deploy an emergency service to your location, helping to connect you any time of the day or night to live help.

APPLE CARPLAY™^{2,4}

Apple CarPlay seamlessly integrates your compatible iPhone® with the car's built-in display and controls, so you can seamlessly make calls, access your music, send and receive messages, get directions, or use Siri® with the tap of a button.

ANDROID AUTO™^{2,4}

Android Auto brings the Android® experience into your ILX. With it, you can project some of your favourite Google apps onto the ILX's touchscreen display, and its intuitive interface populates suggested directions, upcoming appointments, weather conditions, and more. The Talk to Google voice feature allows you to access directions via Google Maps™, send and receive text messages, and access your favourite music.

ILX with Premium A-SPEC package shown in Red Leather with Ebony Ultrasuede™ insert.

AUDIO AS RESPONSIVE AS THE CAR.

The available critically acclaimed ELS Studio® Premium Audio System was crafted by eight-time Grammy® award winner Elliot Scheiner. The system produces music as it's meant to be heard—in studio quality. Whether you connect one of your digital devices or stream over the digital airwaves, even your favourite songs will feel refreshed and new. It's a perfect mix of engineering and artistry that delivers precision to the soul much the same way the ILX delivers precision to every performance opportunity.

"Acura cares, unlike some other providers that put systems in automobiles. Others come from a scientific background, meaning they tune using numbers and charts. Not ears. That's not what music is about, and it is the key to why the ELS Studio systems are so highly regarded."
—Elliot Scheiner

ACCESSORIES

Choose from an array of Acura Genuine Accessories that give you the practical luxuries and advanced styling that will bring you together with your machine.

PACKAGES

COLD WEATHER PACKAGE

- Engine block heater
- Battery charger maintainer

AERO KIT

- Rear underbody spoiler
- Front underbody spoiler
- Side underbody spoiler

PROTECTION PACKAGE

- All-season floor mats
- Rear splash guards
- Trunk tray

SHOWROOM PACKAGE

- All-season floor mats
- Trunk tray
- Illuminated door sill trim
- Ambient lighting
- Rear emblem, dark chrome

ADDITIONAL ACCESSORIES AVAILABLE

- Ambient lighting
- Ashtray, cup-holder style
- Car cover
- Door edge film
- Door handle film
- Door mirror cover, chrome
- Paint pen
- Rear back-up sensors
- Rear bumper appliqué
- Wheel locks, black or chrome
- Wheel lug nuts, black

Accessorized ILX Premium A-SPEC in Platinum White Pearl shown with Aero kit and Lower door garnish, dark chrome. Accessories listed in the packages may also be added individually to your ILX.

- Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For more comprehensive product and feature information, limitations and restrictions, please visit www.acura.ca/disclaimers and refer to your vehicle's Owner's Manual.
- For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
- Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
- Map Database of the Acura Navigation System covers major metropolitan areas in Canada and the 48 contiguous U.S. states. For a list of current, detailed coverage areas, refer to the Acura website, www.acura.ca.
- Subscription required. Complimentary trial – 4 years for Security, 90 days for Remote, 90 days for Concierge – included, after which fees, taxes and other charges will apply in order to continue subscription. The availability of certain cellular networks is required for AcuraLink to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Ask your dealer for full terms and conditions.
- HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.
